# Policy Benefits and Highlights

**Whole Life Insurance – provides either**

**Death Benefit** - pays a lump-sum cash benefit when the insured dies; or

**Maturity Benefit** - pays a lump-sum cash benefit if the insured is still living at age 121.

**Portability** - Coverage may be continued if the employee ceases to be a member of an eligible class for any reason. The rates do not change when the employee leaves the Group. To continue coverage, premiums must be paid directly to the company.

## Rider Benefits<sup>3</sup>

**Accelerated Death Benefit for Terminal Illness or Condition\*** - a lump-sum advance of 75% of the death benefit (not to exceed \$100,000) when certified terminally ill by a physician. The benefit payable is discounted using the current discount rate.

**Children's Term<sup>4</sup>** - level term insurance for each covered dependent child under age 26. Not available if dependent child is covered under a separate certificate.

**Accelerated Death Benefit for Long Term Care with Restoration of Benefits and Extension of Benefits** - a monthly advance of 6% of the death benefit for up to 17 months while receiving qualified long-term care services after a 90-day elimination period when certified chronically ill by a licensed health care practitioner. The restoration benefit restores the death benefit and cash value on a monthly basis to the pre-acceleration amounts. After 100% of the death benefit has been used as a monthly advance, the extension benefit extends the monthly advance for up to an additional 17 months, providing a total of up to 34 months of benefits.

<sup>3</sup>The riders have exclusions and limitations, may vary in availability by issue or termination age, and may not be available to all covered dependents or in all states. Additional premiums may be required for riders added to coverage.

<sup>4</sup>Subject to state limits on dependent life coverage.

\* Premiums are waived after the payment of benefit.

This proposal is subject to the terms, conditions, and limitations of any policy(ies) issued.

## Non-Forfeiture

Over time, as premiums are paid the policy is building cash value. Premiums are guaranteed at issue and the coverage becomes fully paid-up at age 95 if all premiums have been paid.

If premiums are not paid after the coverage is effective and if the policy has developed cash value, the policy coverage can be surrendered for its net cash value or some coverage can continue as paid-up under an available non-forfeiture option. Rider coverage terminates if a non-forfeiture option is elected.

Extended Term Insurance (ETI) is the default non-forfeiture option when premium payments stop and there is no active selection made to continue coverage. ETI reduces the duration of coverage to a shorter term period, but provides the same amount of death benefit.

## Exclusions and Limitations

**Pre-Existing Condition Limitation** - Benefits are not paid for a period of chronic illness care resulting from a pre-existing condition that begins within the first 6 months after the effective date of coverage. This does not apply to a period of care beginning 6 months after the effective date. A pre-existing condition is a condition for which advice or treatment was recommended or received from a medical professional within 6 months before the effective date.

### Exclusions

**Accelerated Death Benefit for Long Term Care with Restoration of Benefits and Extension of Benefits Rider** - Benefits are not paid for long-term care services that are: a result of mental or emotional disorder (except for Alzheimer's Disease, senility or senile dementia that are of organic origin); a result of alcoholism or drug addiction; a result of illness, treatment or medical conditions due to: act of war, participation in a felony, riot or insurrection, serving in the armed forces or auxiliary units, suicide or attempt at suicide, or intentionally self-inflicted injury; provided in a government facility (unless required by law); services for which benefits are available under Medicare (except for deductibles or coinsurance requirements) or other governmental program (except Medicaid), any state or federal workers' compensation, employer's liability or occupational disease law, or motor vehicle no-fault law; received outside the United States or its territories.

**Suicide Exclusion for Group Whole Life, Children's Term Rider** - If the insured or rider insured commits suicide within 2 years of the effective date of coverage, the death benefit will be limited to the premiums paid.

## When Coverage Ends

Coverage ends when the group policy terminates or the insured is no longer eligible for coverage according to the terms of the group policy. Riders have different termination provisions and may terminate earlier than the certificate termination date.
